(TASC)

Land Acknowledgment

We are gathered here today on the ancestral homeland of Muscogee Creek and Cherokee peoples.

Visit native-land.ca

We invite you to visit this website now to find out on whose land you occupy. We acknowledge that all of us stand upon the homelands of Indigenous peoples who were forcibly displaced by European colonization. This acknowledgment, however, is insufficient without our reckoning with the reality that America has benefited from these Native peoples' displacement. The acknowledgement is empty without our efforts to counter the effects of structures that enabled—and that still perpetuate—injustice against Indigenous Americans. Let's all come into this space, honoring the ancestors and cherishing the generations among us. Thank you.

Welcome!

- **Please feel free to:**

- View the agenda in the folder inside your tote bag.
- Review the nearby lunch options in your folder and place an order for delivery or pickup in advance.
- Write your thoughts on our Gratitude Board in the hallway.

- **Please also note:**

- The bathrooms are located down the hall.
- The TASC team is here to provide support or answer any questions during the meeting.
- We will have the following breaks:
 - Quick break from 11-11:15 am
 - Lunch break from 12:45-1:45 pm
 - Quick break from 3:30-3:45 pm
- Coffee and tea will be available in the hall during the quick breaks.

You'll notice stars on your name tags....

Current and Future Work

MCHB MISSION

To improve the health and well-being of America's mothers, children, and families.

MCHB VISION

An America where all mothers, children, and families are thriving and reach their full potential.

GOAL 1

Assure **access** to high-quality and equitable health services to optimize health and well-being for all MCH populations.

GOAL 2

Achieve **health equity** for MCH populations.

GOAL 3

Strengthen **public health capacity and workforce** for MCH.

GOAL 4

Maximize **impact** through leadership, partnership, and stewardship.

Mission Informed: White House Blueprint

Administration | Priorities

BRIEFING ROOM

FACT SHEET: President Biden's and Vice President Harris's Maternal Health Blueprint Delivers for Women, Mothers, and Families

JUNE 24, 2022 • STATEMENTS AND RELEASES

Today, the White House released the Biden-Harris Administration's [Blueprint for Addressing the Maternal Health Crisis](#), a whole-of-government approach to combatting maternal mortality and morbidity. For far too many mothers, complications related to pregnancy, childbirth, and postpartum can lead to devastating health outcomes — including hundreds of deaths each year. This maternal health crisis is particularly devastating for Black women, Native women, and women in rural communities who all experience maternal mortality and morbidity at significantly higher rates than their white and urban counterparts.

Under President Biden and Vice President Harris's leadership, this Administration is making the most significant investments in maternal health in the United States.

WHITE HOUSE
BLUEPRINT FOR
ADDRESSING THE
MATERNAL HEALTH
CRISIS

JUNE 2022

Maternal Health Actions Goal 4

Expand and Diversify the Perinatal Workforce

Our maternal health workforce is under-resourced and not representative of our country's diversity. Given the known benefits of culturally appropriate care, recruiting and training providers from diverse communities is paramount. **To address the gaps in our perinatal workforce, we will increase the number of physicians, licensed midwives, doulas, and community health workers in underserved communities.**

Community Based Doula Supplement

Community Based Doulas Supplement:

The purpose of this supplement is to increase the availability of doulas in Healthy Start service areas, which are those communities most affected by poor infant and maternal health outcomes

COLLABORATION

INNOVATION

**WHITE HOUSE
BLUEPRINT FOR
ADDRESSING THE
MATERNAL HEALTH
CRISIS**

JUNE 2022

Maternal Health Actions Goal 5.2

Address the social determinants of maternal health.

Fund community-based organizations to **support projects to expand maternal mental health access, develop community needs assessments** in consultation with pregnant and postpartum individuals in local communities, increase access to effective digital tools to expand and enhance maternal health care, and expand models that train maternal health care providers and students on **how to address** implicit bias and racism and screen for **social determinants of health**.

**National
Maternal
Mental Health
Hotline**

HRSA

Health Resources & Services Administration

Catalyst for Infant Health Equity

Purpose

- To support the implementation of existing action plans that apply data-driven policy and innovative systems strategies to reduce IM disparities and prevent excess infant deaths.

Objectives

- Action Plan Implementation
- Strategic Partnerships
- Outcome Evaluation

Goals

- To decrease and ultimately eliminate disparities in IM across racial/ethnic groups by achieving steeper declines for groups with the highest rates; and
- To continue reducing overall infant mortality (IM) rates in the United States.

**WHITE HOUSE
BLUEPRINT FOR
ADDRESSING THE
MATERNAL HEALTH
CRISIS**

JUNE 2022

Maternal Health Actions Goal 5.1

Strengthen Economic and Social Supports for People Before, During, and After Pregnancy

Streamline enrollment in benefit programs for housing, child care, financial assistance, and food by building better linkages between these programs so that pregnant and postpartum women can more easily obtain services that address their needs outside the doctor's office

Benefits Bundle Pilot

The Benefits Bundle project represents a joint effort between HRSA/MCHB and the Office of Management and Budget (OMB)/United States Digital Service (USDS). Other partners include USDA, DOE, HUD, and ACF, all working to improve the experiences of low-income families navigating the years from birth to age five (0-5).

Benefits Bundle Pilot

What is the goal of the Benefits Bundle Pilot?

The goal of the Benefits Bundle Pilot is to support Healthy Start (HS) grantees in adopting and implementing peer-, community- and/or workforce-based models to improve family experiences in benefits navigation and beyond.

WHITE HOUSE
BLUEPRINT FOR
ADDRESSING THE
MATERNAL HEALTH
CRISIS

JUNE 2022

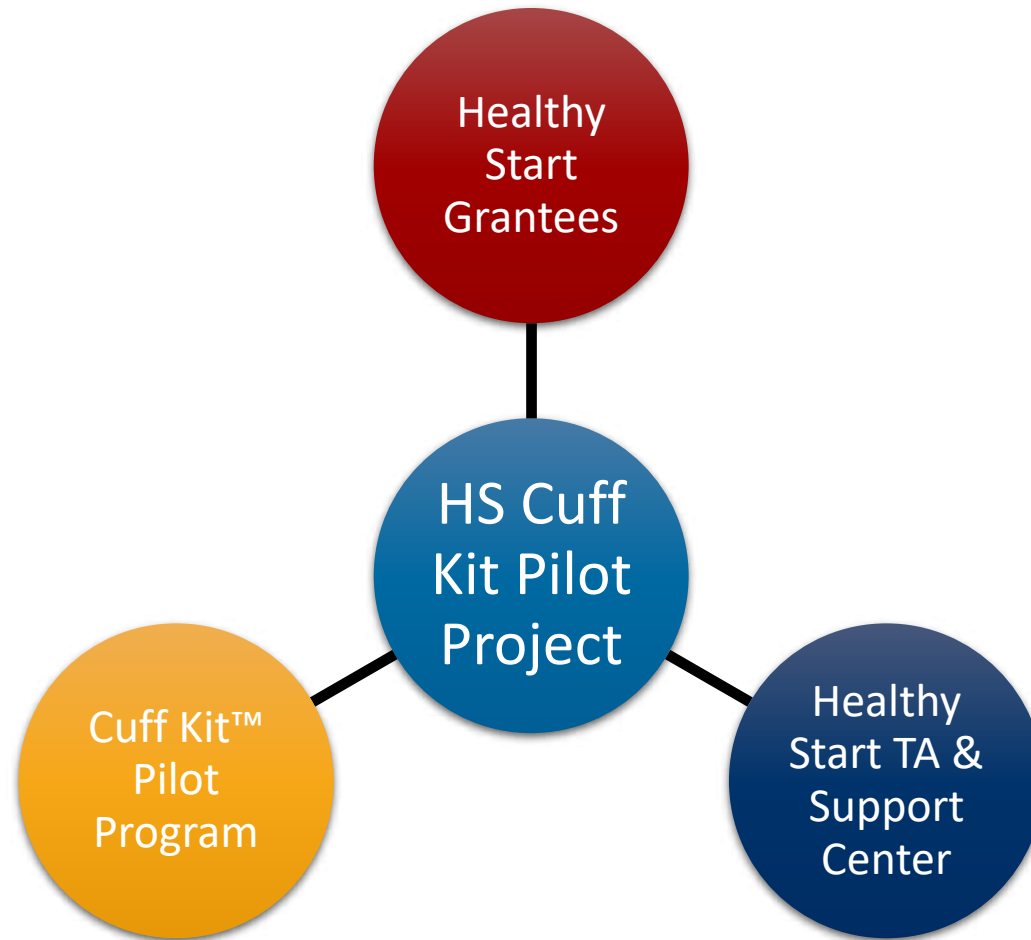

Maternal Health Actions Goal 1.7

- Improve quality of care provided to pregnant and postpartum women **with or at risk for hypertensive disorders of pregnancy** by disseminating self-measured blood pressure monitoring tools and resources for obstetrical providers, primary care professionals, and the pregnant and postpartum women they serve.

Blood Pressure Cuff Kit Pilot Project

Purpose

To ascertain the value of providing Blood Pressure Cuff Kits to Healthy Start communities.

Cuff Kit Pilot Project

Objectives:

- To **measure** the value of having a BP cuff in the house to support the HS participant in monitoring their BP.
- To **support** the HS participant in tracking and sharing BP readings with care providers.
- To **determine** how having a BP cuff in the home may result to broader utilization (e.g., partners, parents).

Lessons Learned: Infant Health Equity Convenings

1

How Do We Improve? Advancing MCH resources across all communities with a focus on health equity

2

What Barriers Do We Face? Investing resources, improving community health and addressing inequities created by systemic and structural racism

3

What Is the Data Telling Us? Engaging communities in data collection efforts to drive advancements in equity and measure progress.

4

What Did We Learn? What Actions Can We Take? Final convening for all MCH community members

HOW DO WE IMPROVE? ADVANCING MCH RESOURCES ACROSS ALL COMMUNITIES WITH A FOCUS ON HEALTH EQUITY

WE HAVE TO ACCELERATE THE RATE OF CHANGE TO REACH OUR GOAL

TAMELA MILAN-ALEXANDER

- CENTER FAMILY VOICES
- WOMEN ARE DISMISSED, DUMBED DOWN, AND DENIED WHEN TRYING TO GET CARE
- INVOLVE COMMUNITY IN PROGRAM DESIGN
- FEAR AND DISRESPECTFUL CARE AFFECTS EQUITABLE ACCESS
- REPRESENTATION OF BIPOC HEALTH PRACTITIONERS

ART JAMES

- RACISM DIRECTLY AFFECTS HEALTH EQUITY
- FUND COMMUNITY-LED PROGRAMS
- SOCIAL INEQUALITY KILLS
- EMBED HIGH QUALITY HEALTH CARE IN COMMUNITY
- REQUIRE COMMUNITY PARTNERS

ASHLEY HIRAI

- NEED SOLUTION-FOCUSED RESEARCH
- GIVING VOICE TO DATA SHOWS BIAS
- NEED INCLUSIVE REPORTING WITH MULTIPLE RACIAL CATEGORIES
- LEARN FROM COUNTIES THAT HAVE ELIMINATED EXCESS MORTALITY
- CO-LOCATE TAX SERVICES WITH HEALTH SERVICES

HOW DO WE ACHIEVE INFANT HEALTH EQUITY?

- ELEVATE STORIES FROM FAMILIES
- LOOK ACROSS FAMILY HEALTH
- REPRESENTATION IN PROVIDERS
- IMPROVE QUALITATIVE POPULATION DATA

WHICH POLICIES NEED CHANGING?

- ENVIRONMENTAL JUSTICE
- FOOD EQUITY
- HEALTH EQUALITY
- INVESTMENT IN PERINATAL COMMUNITY WORKERS
- DOULAS POST-PARTUM
- PAID LEAVE SO BIRTHING PEOPLE HAVE QUALITY TIME WITH BABY
- GROUP POSTPARTUM CARE
- DECriminalization OF SUBSTANCE USE

WHAT ARE THE GAPS?

- MANDATE CARE FOR HEALTH OF MOTHERS
- SELF CARE
- EMOTIONAL BURDEN
- FATIGUE IN THIS FIGHT
- EXAMINE NON-CLINICAL FACTORS
- ACCESS DISTANCE URBAN VS RURAL
- BREAK DOWN SILOS
- SMOOTHER COLLABORATION
- CHOICE OF PROVIDER

ADVANCE HEALTH EQUITY THROUGH CITY PLANNING

- AFFORDABLE CHILDCARE
- REPRODUCTIVE JUSTICE
- GUARANTEED BASIC INCOME
- HOME VISITS POST-PARTUM EMBEDDED IN COMMUNITIES
- FUNDING! SO NEEDED PROGRAMS CAN ACTUALLY RUN

WHAT PROGRAMS AND SUPPORTS ARE NEEDED?

- COMMUNITY-BASED DOULA PROGRAMS

WHAT BARRIERS DO WE FACE?

INVESTING RESOURCES, IMPROVING COMMUNITY HEALTH, AND ADDRESSING INEQUITIES CREATED BY SYSTEMIC AND STRUCTURAL RACISM

COVID'S IMPACT: BARRIERS, CHALLENGES and POTENTIAL SOLUTIONS

EXISTING BARRIER MADE WORSE!

- COVID-19 ISOLATION
- TECHNOLOGY: SHIFTING TO HARDWARE (\$\$\$)
- TRANSPORTATION ISSUES

LESS REPRODUCTIVE HEALTH ACCESS

- INCREASED KNOWLEDGE OF BENEFITS OF TELEHEALTH
- ACCESS TO COVID VAX
- HOSPITAL POLICIES CHANGED w/o EXPLANATION
- POLARIZATION of HC/POLITICS

↑ C-SECTIONS LET COMMUNITY NAME NEEDS

- DATA & HOW WE ASK WHAT
- HOW WE UNDERSTAND WHAT WE ARE ENTITLED TO AS PATIENTS
- RESILIENCE BUILDING (ERODED) LACK OF TRUST

↓ SCREENINGS

- LOTS OF APPTS CKLD
- SCARCITY of PROVIDERS

THIS!

SOCIO-ECONOMIC FACTORS WITHIN YOUR ORGANIZATION

INCLUDE OTHER STRESS FACTORS

- HOUSING, ENVIRONMENTAL, POLICING, GUN VIOLENCE, GANG VIOLENCE, LOSS and DEATH, GRIEF, TRAUMA, MENTAL HEALTH, DRUGS, EDUCATION, TRAINING SCHOOL DISTRICT CHANGES, etc.

what is the DATA telling us?

WHAT DID WE LEARN? WHAT ACTIONS CAN WE TAKE?

OPENING REMARKS by MICHAEL D. WARREN, MD, MPH, FAAP, ASSOCIATE ADMINISTRATOR, MATERNAL AND CHILD HEALTH BUREAU, HRSA

ADVANCE EQUITY

WE HAVE TO CHANGE the WAY WE DO THINGS

HAVE NEVER ACHIEVED the SURVIVAL RATES for BLACK & BROWN INFANTS

ONE SIZE FITS ALL is NOT GONNA WORK!

TO ACHIEVE EQUITY, WE NEED to MAKE IT POSSIBLE for an ADDITIONAL 3,727 BABIES to MAKE it to their FIRST BIRTHDAY.

FOCUS on STATES with ↑ INFANT DEATHS

IT IS NOT A HEAVY LIFT!

**WAGNE CO, MI
COOK CO, IL
HOUSTON, TX**

GOALS

- UNDERSTAND GAPS and NEEDS
- UNDERSTAND COMMUNITY CONTEXT
- ENSURE ACCESS to CARE
- ADVOCACY: DOULA, MOTHER/INFANT
- ADDRESS SOCIO-ECONOMIC FACTORS
- SUPPORT SYSTEMS for HC WORKERS
- BIAS HOW TO ELIMINATE?
- DATA COLLECTION, RESEARCH

STATISTICS:

- 30 YR LAG of SURVIVAL RATES
- INFANT MORTALITY RATE to 5.0%
- 21K BABIES DIE YEARLY
- RACIAL BACKGROUND INFLUENCES SURVIVAL OUTCOMES

PROGRAMS:

- HEALTHY START DOULA SUPPLEMENT
- HEALTH EQUITY GRANTS
- REGION 5 INFANT MORTALITY PROJECT
- ACCELERATING EQUITY LEARNING COMMUNITIES

WHAT DID WE LEARN? WHAT ACTIONS CAN WE TAKE?

JANELLE PALACIOS, RN, CNM, PhD, NURSE MIDWIFE, RESEARCHER and STORYTELLER SALISH/KOOTENA, FLATHEAD INDIAN RESERVATION, MONTANA

REDWOODS are STRONG, RESILIENT CREATURES that USES ITS RESOURCES to

WHAT CAN HC INSTITUTIONS and GOVT DO?

DATA:
→ HOW WE COLLECT
→ EXPAND ETHNICITIES
→ HOW WE ANALYZE it
→ HOW WE REPORT it

→ the LANGUAGE USED WHEN WRITING AND SPEAKING

→ MORE TRANSPARENCY from IHS

→ EXPAND the LIST of BOXES to INCLUDE ALL TRIBES of NORTH, CENTRAL and SOUTH AMERICA

→ COMMUNITY LEADERSHIP

→ TRIBAL AUTONOMY and WISDOM

→ NON-TRADITIONAL HEALTH WORKERS

→ NOT JUST ALLYSHIP but ALSO ADVOCACY

REFRAME

MAINTAIN, SUPPORT and HEAL at the COMPLEX ROOT NETWORK LEVEL...

the STORY of THOSE WHO NEVER GOT to DANCE

INCARCERATION - ACCESSIBILITY - TRANSPORTATION - VOTING RIGHTS - LACK of FOOD - the EXTINCTION of the PLAINS BUFFALO - LOOK UP the DEFINITION of STARLIGHT TOMB - IT MEANT DEATH by EXPOSURE

NATIVE FAMILIES were DESTROYED & TORN APART

NO HOME NETWORKS, NOT EVEN SINGING, DANCING or SPEAKING NATIVE LANGUAGES...

STRIPPED of LANGUAGE, CULTURE, RELIGION, FOODS and DRESS

OR WE'LL BEAT it OUT of you!

MANY WERE STERILIZED WELL INTO the 1980s

THEY TRIED to BURY US

BUT... USING this METAPHOR to DETERMINE HEALTH OUTCOMES for NATIVE AMERICANS and ALASKANS: IT'S a DIFFERENT METAPHOR

NATIVE CHILDREN were SENT to RESIDENTIAL SCHOOLS WHERE they ENDORED sexual, MENTAL, EMOTIONAL and SPIRITUAL ABUSE

FORCED ASSIMILATION into WHITENESS

BUT THEY DID NOT KNOW WE WERE SEEDS

RACISM AND BIAS in POLICY, GOVERNMENT, HEALTHCARE, POLICING, etc.

WHAT DID WE LEARN? WHAT ACTIONS CAN WE TAKE?

KAREN SCOTT, MD, MPH, FAAP, CHIEF BLACK FEMINIST PHYSICIAN, SCIENTIST, FOUNDING CEO, OWNER of BIRTHING CULTURAL RIGOR, LLC

KNOWLEDGE and WISDOM
EXPERIENCES VOICES LOVE COMMUNITIES PARENTS
CHERISH BLACK
MOTHERS BABIES FATHERS

and GRANDFATHERS

LISTEN
BELIEVE THEM
to THEM
THEY ARE NOT BROKEN
NOR HELPLESS,
THEY NEED CARE

BLACK DOCTORS, NURSE and OTHERS in HC NEED

HELP and SUPPORT
(NOT JUST AT WORK EITHER)

WE HAVE to **BREAK** these INSTITUTIONAL BIASES that **HARM** BLACK FAMILIES

HONOR NEW LIFE by BEING KIND

WHEN a PERSON is PREGNANT with a FEMALE, they HAVE 3 GENERATIONS INSIDE them...

DEVELOP the CULTURAL COMPETENCE to KNOW WHITE WAYS ARE NOT THE ONLY WAYS

BLACK BODIES DESERVE

CARE, KINDNESS, RESPECT, REST,
APPRECIATION, TRUST, and UNCONDITIONAL LOVE

- ADVOCATE for BLACK PATIENTS
- SUPPORT BLACK PRACTITIONERS
- CHAMPION INSTITUTIONAL CHANGE
- WELCOME BLACK WISDOM in CARE

Action Steps for Strengthening the MCH Workforce

Create a pipeline from the community to MCH careers to ensure the workforce is representative of service area

Create systems of support for MCH staff

Ensure pay equity for the MCH workforce

Action Steps for Addressing Upstream Drivers of Inequity

Prioritize and amplify mothers, fathers, and communities' lived experiences

Break down silos and expand programmatic reach beyond clinical settings

Expand efforts to address non-clinical needs, including economic/occupation segregation, housing instability, food insecurity, transportation

Action Steps for Revising Funding Practices

Bolster support for
community-based,
community-driven
organizations

Strengthen
relationships between
the community and
funding institutions

Create systems of
accountability

Action Steps for Enhancing Data Collection and Utilization

Invest in resources to expand the current understanding of maternal and infant health outcomes

Rethink what kind of data to collect

Strengthen utilization of data

Strengthen community engagement in data collection

Lessons Learned: Grantee Listening Sessions

Addressing Social and Structural Determinants of Health

Increasing Grantee Flexibility

Reducing Grantee Burden

Grantee Listening Sessions – Increasing Grantee Flexibility

Community Level

Flexibility to address the main drivers of infant mortality within the project area and target population

Participant Level

Flexibility to customize the types and intensity of services

Grantee Listening Session – Addressing SDOH

Increased emphasis on upstream interventions

Increased emphasis on addressing SDOH for Healthy Start participants

Increased emphasis around activities that address racism and bias

Grantee Listening Sessions- Reducing Grantee Burden

Consider strategies to support Healthy Start staff retention

Consider requirements for number served - quality over quantity

Reduce data collection and reporting burden

Clarify program requirements (e.g., clinical funding, CAN activities)

Healthy Start Request for Information – Initial Takeaways

- **Recommendations for HRSA:**
 - Increase the emphasis on addressing SSSDOH impacting Healthy Start communities:
 - Need for multiple strategies (e.g., educating providers, housing, transportation, public/private partnerships, mental health, CANs).
 - Support Healthy Start programs to address racism and bias in health care through education and training, family engagement and developing cross-sector partnerships.
 - Consider the needs of rural and border communities in Healthy Start program design.
 - Recognition of the value in a single Healthy Start data base and the challenges switching to a new database may pose for some grantees.
 - Recommendations on improvements to CAREWare.

Continued Priorities – Addressing the Key Drivers of Infant Mortality

Leading Causes of Infant Mortality

Infant deaths and mortality rates for the top 5 leading causes of death for African Americans, 2020 (Rates per 100,000 live births)

Cause of Death (By rank)	# Non-Hispanic Black Deaths	Non-Hispanic Black Death Rate	# Non-Hispanic White Deaths	Non-Hispanic White Death Rate	Non-Hispanic Black / Non-Hispanic White Ratio
(1) Low birthweight	1,136	214.4	1,040	56.4	3.8
(2) Congenital malformations	705	133.1	1,976	107.2	1.2
(3) Sudden infant death syndrome (SIDS)	472	89.1	563	30.5	2.9
(4) Accidents (unintentional injuries)	375	70.8	547	29.7	2.3
(5) Maternal Complications	337	63.6	370	20.1	3.2

Source: CDC 2022. Infant Mortality Statistics from the 2020 Period Linked Birth/Infant Death Data Set. National Vital Statistics Reports. Table 2.

Future Priorities

- **Strengthening approaches to address upstream factors impacting perinatal health**
- **Investing in organizations that are the trusted experts in their communities**
- **Strengthening family and community engagement**
- **Increasing flexibility**
- **Reducing grantee burden**

Mississippi Title V Presentation

Beryl Polk, PhD, MS, CPM, CCM

Health Services/Title V Director

State of Mississippi

April 17-18, 2023

Mississippi's Title V Journey 2022-2023

MCH Priorities Identified

- Reduce Maternal Morbidity and Mortality
- Reduce Infant Mortality
- Improve Access to Care and Family-Centered Care
- Increase Breastfeeding, Healthy Nutrition, and Healthy Weight
- Improve Oral Health
- Increase Access to Timely, Appropriate, and Consistent Health/Developmental Screenings
- Assure Medical Homes for CYSHCN
- Improve Access to Mental Health Services Across MCH Populations
- Ensure Health Equity by Addressing Implicit Bias/Discrimination/Racism

Examining MCH Population Domains

Women/Maternal Health: *Improve health outcomes for all women, especially those who are or seek to be pregnant*

- **Reduce maternal morbidity and mortality**

- SPM 10: Percent of severe maternal morbidity events related to hypertension **[NEW]**
- SPM 16: Nulliparous, term singleton, vertex (NTSV) cesarean rate **[NEW]**

- **Improve access to care**

- NPM 1: Percent of women (18-44) with a preventive medical visit in the past year
 - ESM 1.5: Promote the use of the Mississippi Quitline and Baby and Me Tobacco Free to assist women in quitting smoking during pregnancy **[NEW]**

- **Improve oral health**

- NPM 13.1: Percent of women who had a preventive dental visit during pregnancy
 - ESM 13.1.1: Number of pregnant and postpartum women who received oral health education – **0, performance hampered by COVID**

Examining MCH Population Domains

Perinatal and Infant Health: *Improve health outcomes for infants born in MS, being especially those in under-resourced communities, born to youth, and born to women of color.*

- **Reduce infant mortality**

- NPM 5A: Percent of infants placed to sleep on their backs
- NPM 5B: Percent of infants placed to sleep on a separate approved sleep surface
- NPM 5C: Percent of infants placed to sleep without soft objects or loose bedding
 - ESM 5.1: Number of safe sleep educational books and resources distributed to families in all birthing hospitals – **9,560, performance hampered by COVID**

Examining MCH Population Domains

Perinatal and Infant Health: *Improve health outcomes for infants born in MS, being especially those in under-resourced communities, born to youth, and born to women of color.*

- **Improve access to family-centered care**
 - SPM 17: Percent of women (18-44) on Medicaid with a preventive medical visit in the past year **[NEW]**
- **Increase breastfeeding, healthy nutrition, and health weight**
 - SPM 12: Percent of women who are enrolled in WIC and initiate breastfeeding **[NEW]**
 - NPM 4: (A) Percent of infants who are ever breastfed; (B) Percent of infants breastfed exclusively through 6 months
 - ESM 4.1: Number of hospitals certified as Baby Friendly to increase the percent of births occurring in Baby Friendly hospitals – **22 hospitals, exceeding target**

Examining MCH Population Domains

Child Health: *Improve health outcomes for children (1-21)*

- **Increase access to timely, appropriate and consistent health and developmental screenings**
 - NPM 6: Percent of children (9-35 months) who received a developmental screening using a parent-completed screening tool in the past year
 - SPM 14: Number of children (9-35 months) who receive developmental screening using a parent completed tool during an EPSDT visit **[NEW]**
 - ESM 6.2: Number of health professionals and parents/families who receive training on developmental screening and/or monitoring **[NEW]**
 - SPM 13: Percent of infants with a hearing loss who received confirmation of hearing status by 3 months of age **[NEW]**
 - SPM 15: Percent of newborns and infants diagnosed with a genetic or metabolic condition who were screened and referred for diagnosis timely **[NEW]**
 - SPM 3: Percent of children on Medicaid who receive a blood lead screening test at age 12 and 24 months of age – **3.8%, performance hampered by COVID**

Examining MCH Population Domains

Child Health: *Improve health outcomes for children (1-21)*

- **Improve access to family-centered care**

- SPM 21: Percent of children with and without special healthcare needs who have a medical home **[NEW]**

- **Increase breastfeeding, healthy nutrition, and health weight**

- SPM 11: Percent of children (2-5) who have a BMI at or above the 85th percentile **[NEW]**

- **Improve oral health**

- NPM 13.2: Percent of children (1-17) who had a preventive dental visit in the past year
 - ESM 13.2.1: Number of children (0-3) who had a preventive dental visit with referred dentist – **0, provisional data**
 - ESM 13.2.2: Number of referrals of children (0-3) for a preventive dental visit by MSDH nurses – **424, performance hampered by COVID**
 - ESM 13.2.3: Number of trainings completed by medical providers on use of fluoride varnish in the primary care setting – **8, provisional data**

Examining MCH Population Domains

Adolescent Health: *Improve health outcomes for adolescents (12-17)*

- **Improve access to care**

- NPM 10: Percent of adolescents (12-17) with a preventive medical visit in the past year.
 - ESM 10.2: Number of MSDH county health departments who provide integrated health services, including family planning, HIV/STI services, cancer screening, and sexual health counseling to adolescents (12-17) **[NEW]**

- **Increase breastfeeding, healthy nutrition, and health weight**

- NPM 8.2: Percent of adolescents (12-17) who are physically active at least 60 minutes per day
 - ESM 8.2.1: Percent of junior high schools and high schools that complete the School Health Index (SHI) Self-Assessment and Planning Guide – **20.6%**

Examining MCH Population Domains

Children with Special Health Care Needs (CYSHCN): *improve health outcomes for CYSHCN (0-21)*

- **Assure medical home for CYSHCN**

- NPM 11: Percent of children with and without special health care needs (0-17) who have a medical home
 - ESM 11.1: Number of providers receiving education or technical assistance about the need and importance of a medical home and/or family-centered care – **0, performance hampered by COVID**
- SPM 18: Percent of children with and without special health care needs who received services necessary to make transitions to adult health care **[NEW]**

Examining MCH Population Domains

Cross-cutting/System Building: *Improve health outcomes by reducing disparities, overcoming barriers to health, and addressing unmet needs*

- **Ensure health equity by addressing implicit bias, discrimination, and racism**
 - SPM 20: Number of MCH programs that have developed a written plan to address health equity **[NEW]**
- **Improve access to mental health services across MCH populations**
 - SPM 19: Adolescent suicide rate **[NEW]**

Healthy Start Support

- Assist in identifying health care partners
- Training in capacity building via leveraging partnerships with FQHCs
- Supporting access to materials for provider and consumer education
- Repository of Best/Evidenced Based Measures adopted by funded Healthy Start Programs (if not developed)
- Strategies to reduce health disparities among populations
- Understanding the challenges programs have post-COVID-19

North Carolina Title V Presentation

Shelby M. Weeks, MHS

Branch Head

*Infant & Community Health Branch,
North Carolina Department of Health*

Tonya Daniels

Project Director

*Baby Love Plus, North Carolina
Department of Health*

NC Department of Health and Human Services

Title V Update

April 17, 2023

NC Healthy Start Sites

- **Healthy Start Baby Love Plus**
- **Healthy Start Corps**
- **Triad Baby Love Plus**

NCDHHS Priorities

*These priorities and our work across the department are grounded in **whole-person health**, driven by **equity**, and responsive to the lessons learned responding to the greatest health crisis in more than a generation.*

Behavioral Health & Resilience

We need to offer services further upstream to build resiliency, invest in coordinated systems of care that **make mental health services easy to access** when and where they are needed and to **reduce the stigma** around accessing these services.

Child & Family Well-Being

We will work to ensure that North Carolina's children grow up safe, healthy and thriving in nurturing and resilient families and communities. **Investing in families and children's healthy development builds more resilient families, better educational outcomes and, in the long term, a stronger society.**

Strong & Inclusive Workforce

We will work to strengthen the **workforce that supports early learning, health and wellness by delivering services** to North Carolina. And we will take action to be an equitable workplace that lives its values and ensure that all people have the opportunity to be fully included members of their communities.

Child & Family Well-Being

Child behavioral health

Bring together programs and data to support children's behavioral health needs in their communities

Child welfare

strengthen the services and supports available across NC for our most vulnerable children and families

Nutritional insecurity for children & families

Increase access to healthy, nutritious food through innovative strategies

Maternal & infant health

Equitably improve women's health and birth outcomes

Child & Family Well-Being

Maternal and Infant Health

In 2020, infant deaths accounted for 63% of all child deaths in NC.

KEY STRATEGIES

Reproductive life planning

Prenatal and perinatal services, including doula services and group prenatal care

Ensuring appropriate level of care for newborns and pregnant women

Evidence-based home visiting and parenting education

Updated Perinatal Health Strategic Plan: 2022-2025

A **statewide guide to improve maternal and infant health** and the health of all people of reproductive age

Based on the “12-Point Plan to Close the Black-White Gap in Birth Outcomes: A Life-Course Approach” (Lu, et al.)

Encompasses infant mortality, maternal morbidity and mortality, and the health of all women and men of reproductive age

Key differences from 2016-2020 plan:

Increased emphasis on **health equity**

- Highlights the challenges of structural racism and the social drivers of health

Establishes **greater accountability**

- Puts an evaluation plan in place to better track outcomes
- Includes four overarching indicators that focus on reducing health inequities in maternal and infant health

Strives to use **more inclusive** language, representative of all NC families

Recent documentary featuring NCDHHS staff and partners highlighting perinatal disparities

- WRAL released the documentary “Critical Term: Why Are Black Mothers and Babies Dying?”
- Available to watch at:
https://www.youtube.com/watch?v=vWvpwaf_Rsg
- Powerful documentary highlights not only the stories of birthing people, but also of doulas working throughout the state with members of our Perinatal Health Equity Collective featured in their work.
- Supports our efforts for increased supports for pregnant individuals, such as doula services, as a way to improve birth outcomes and decrease disparities

NC Title V 2021-2025 Priority Needs

Women/Maternal Health

1. Improve access to high quality integrated health care services
2. Increase pregnancy intendedness within reproductive justice framework

Perinatal/Infant Health

1. Improve access to high quality integrated health care services
3. Prevent infant/fetal deaths and premature births

Child Health

4. Promote safe, stable, and nurturing relationships
5. Improve immunization rates to prevent vaccine-preventable diseases

Adolescent Health

6. Improve access to mental/behavioral health services

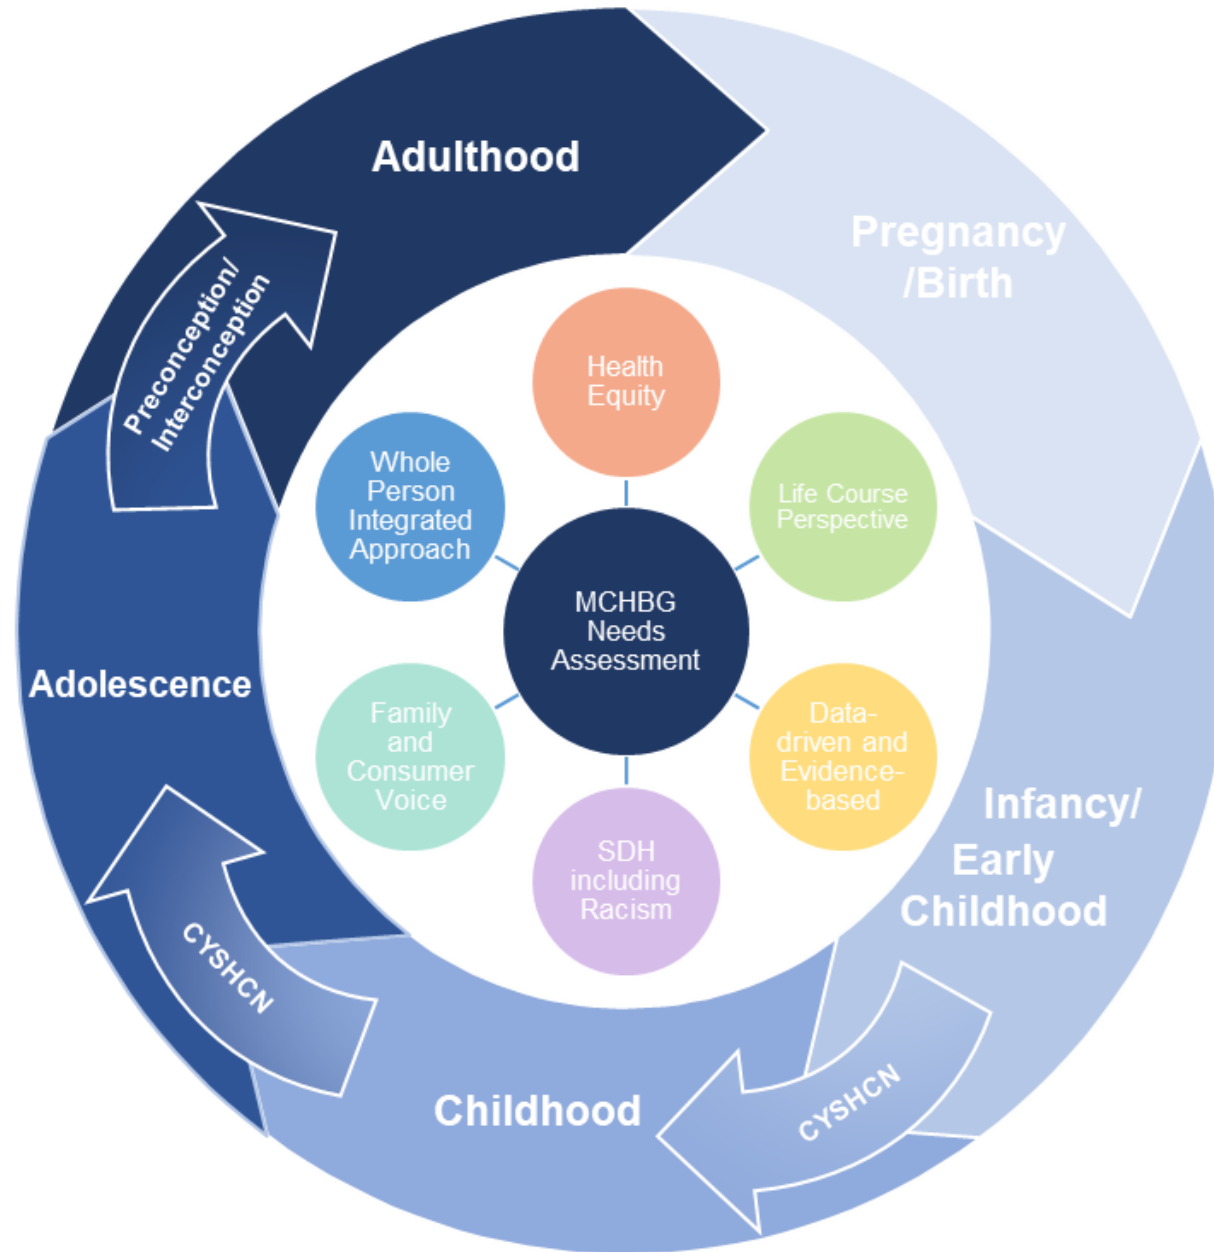

CYSHCN

7. Improve access to coordinated, comprehensive, ongoing medical care for CYSHCN

Cross-Cutting/Systems Building

8. Increase health equity, eliminate disparities, and address social determinants of health

2020 NC Title V Needs Assessment Framework

COIN Ongoing Efforts

- **SDOH - #impactEQUITYNC**
- **Perinatal Regionalization**
 - **Neonatal and Maternal Levels of Care Action Teams**
- **Preconception Health**

#impactEQUITYNC

Collaboration dedication to promoting health equity for North Carolinians through public policies, programs, and administrative practices

Health Equity Impact Assessment (HEIA)

Partners:

- NC Child
- March of Dimes
- UNC Collaborative for Maternal & Infant Health and Jordan Institute for Families
- NC Division of Public Health
- NC Office of Minority Health and Health Disparities

What is the HEIA?

The Health Equity Impact Assessment (HEIA) provides a structured process to guide the development, implementation and evaluation of policies and programs in order to **promote health equity and ultimately reduce disparities.**

South Carolina Title V Presentation

Kristen Shealy, MSPH, MPA

*Maternal and Child Health Bureau,
South Carolina Department of Health*

SOUTH CAROLINA: PROCESS FOR DEVELOPING TITLE V ACTION PLAN AND MEASURES

WAVE Trend Analysis

- Population Health Domain Workgroups

Need & Feasibility Prioritization

- Entire Advisory Committee

Connecting the Dots

- Strategy → ESM development

Women/Maternal Health Measures/Strategies

NPM 1: Preventive Medical Visit

ESM 1.1: Number of downloads of the family services directory
ESM 1.2: Percent of counties with low utilization of preventive health visits among women that are served by a CHW

NPM 2: Low Risk 1st C-sections

ESM 2.1: Percent of SC birthing facilities that adopt evidence-based safety bundles
ESM 2.2: Pilot the CDC Locate Model in a Level III hospital
ESM 2.3: Percent of birthing facilities that receive education on providing post-birth messaging to women at risk of maternal morbidity and mortality
ESM 2.4: Develop and disseminate annual topic-specific data briefs centered around SC MMMRC Committee findings

SPM 1: Postpartum Check-up

Perinatal/Infant Health Measures/Strategies

NPM 3: VLBW Born in Level III Hospitals

ESM 3.1: Publish report on data trends and disparities in VLBW births at Level I and Level II facilities
ESM 3.2: Number of providers that complete training on non-punitive conversation re: substance use
ESM 3.3: Percent of Medicaid prenatal care providers screening pregnant women for smoking, alcohol and drug use, domestic violence and depression using the SBIRT tool

NPM 4: Breastfeeding (A-Ever; B-Exclusive)	ESM 4.1: Conduct a SWOT analysis with lactation support professionals to strengthen statewide breastfeeding efforts
NPM 5: Sleep Environment	ESM 5.1: Number of culturally appropriate translations of material created for populations at risk of infant mortality ESM 5.2: Number of participants that complete financial literacy curriculum among MCH program settings
SPM 1: Breastfeeding Duration	
Child Health Measures/Strategies	
NPM 6: Developmental Screening	ESM 6.1: Collaborate with partners to develop a state-wide developmental screening registry ESM 6.2: A) Percent identified as having a birth defect through the SCBDP who are referred to Babynet, and B) percent of referrals who are eligible have scheduled an intake appointment
NPM 8.1: Physical Activity	ESM 8.1: Percent of school districts participating in professional development opportunities that promote physical activity for all students before, during, and after the school day
NPM 13.2: Preventive Dental Visit	ESM 13.2: Number of new partnerships to improve coordination between oral health services and well child visits

Adolescent Health Measures/Strategies

NPM 9: Bullying ESM 9.1: Publish a white paper describing the impact and cost of bullying on families, stratified by race/ethnicity and related equity metrics

NPM 10: Preventive Medical Visit ESM 10.1: Number of telehealth providers that adopt a standard of care for adolescents
ESM 10.2: Percent of school districts that offer telehealth services and access to students

CYSHCN Measures/Strategies

NPM 11: Medical Home ESM 11.1: Percent of SC AAP members trained on NBS abnormal notification and referrals
ESM 11.2: Conduct a point in time survey of DHEC's CYSHCN to assess barriers and identify any racial/ethnic disparities in establishing a medical home

NPM 12: Transition ESM 12.1: Percent of pediatric providers who use telehealth to assist CYSHCN transition to adult care

Cross-Cutting Measures/Strategies

SPM 3: Implement CDC's Hear Her Campaign

SPM 4: Develop a social marketing/awareness campaign to increase families' efficacy to access available resources and services across the state
