HEALTHY START SITE ASSESSMENT: WHERE IS MY HEALTHY START SITE ON THE COLLABORATION SPECTRUM?

TOOL THE COLLABORATION SPECTRUM

The word 'collaboration' can be interpreted in several ways. There is a continuum of different collaborative approaches. As groups move along the continuum they must pay attention to activities that build trust amongst the partners. Collective Impact efforts exist within the stages of the collaboration continuum that include coordination of efforts, collaboration amongst partners and the integration of services and programs. While distinguishes Collective Impact as a form of collaboration is its unique emphasis on: the use of shared data; and, its focus on working together across multiple sectors.

MAIN IDEAS

Tool How To:

Step 1 – Ask participants to place a colored dot on a visual of the Collaboration Spectrum to depict the level of collaboration currently happening regarding your issue

Step 2— You can also ask them to place a second different colour dot on the Collaboration Spectrum to depict the level of collaboration that the personally would like to see in addressing your issue.

Step 3 - Debrief and discuss similarities and differences reflected in the placement of dots.

Tool Debrief:

Some suggested debrief questions include:

- How can we get others excited to work with us on this issue?
- What additional information do community partners require (& who should they hear it from)?
