Q&A	All
Closing	Kenn Harris, NICHQ

Meeting Logistics

Please note the following:

- This session is being recorded, and will be archived for future viewing.

- All participants are muted upon entry. We ask that you remain muted to limit background noise.

- Members are encouraged to participate in the discussion by typing your comment/asking questions using the chat box.

Connecting to the Audio Conference

- Join Zoom Meeting by **clicking Zoom Meeting link** & launching the Zoom application

- An audio conference box will appear
 - If you do not see the box click the **'Join Audio' button**

- From the audio conference box: Select to **"Phone Call"** or **"Computer Audio"**

- If using the phone:

- dial the number next to "Dial"
- You will be prompted to enter the **"Meeting ID"**
- Then you will be prompted to enter the **"Participant ID"**

Ways to Participate: Chat

The screenshot shows a Zoom meeting window with the following details:

- Zoom Participant ID: 49 Meeting ID: 617-788-369
- Talking: [Redacted]
- Meeting Topic: Healthy Start Webinar
- Host: HS TA & Support Center
- Invitation URL: <https://zoom.us/j/617788369> (with a 'Copy URL' link)
- Participant ID: 49

At the bottom of the Zoom window, the 'Chat' button is highlighted with a red box. A red arrow points from this box to the 'Zoom Group Chat' sidebar on the right. Another red box is placed over the 'Chat' button in the bottom toolbar, with a red arrow pointing to it from a text box that says "At the bottom of the Zoom window, you will see a 'Chat' button".

The 'Zoom Group Chat' sidebar on the right contains a text input field with the placeholder "Type message here..." and a dropdown menu set to "To: Everyone". A red box around the "Everyone" dropdown is labeled "Chat here to everyone!".

Other visible elements include a "Share" button, an "Invite Others" button, and a "Leave Meeting" button in the bottom toolbar.

Welcome

Healthy Start TA &
Support Center Staff

Goal

- The goal of this webinar series is to **strengthen and enhance grantees' capacity to meet their clients' needs** (and consequently, the Healthy Start benchmarks) via virtual platforms in the midst of the COVID-19 pandemic

Webinar Series Schedule

Introduction to the Beyond COVID-19 Webinar Series	October 7, 2020
A Deep Dive into Providing Teleservices for Healthy Start	November 4, 2020
Healthy Start Best Practices During and Beyond COVID-19	December 2, 2020
Quick Tests of Change for Healthy Start	January 6, 2021
Reconnecting & Reengaging Healthy Start Clients	February 3, 2021

Webinar Series Topics

- Best practices for providing case management virtually
- Safety, liability, and HIPAA concerns
- Success stories and challenges
- COVID-19-related change ideas for Healthy Start projects
- Fostering connections with clients virtually

We are #HealthyStartStrong

Do you have a success story about staying connected with existing clients or building relationships with new clients virtually during the COVID-19 pandemic?

Email your story to healthystart@nichq.org!

Grounding Exercise

Current HIPAA Guidelines for Telehealth Services

- The Office for Civil Rights (OCR) at the Department of Health and Human Services (HHS) is responsible for enforcing certain regulations under the Health Insurance Portability and Accountability Act of 1996 (HIPAA)
- The OCR has stated it will not impose penalties for noncompliance with the regulatory requirements against covered healthcare providers in connection with the good faith provision of telehealth services during the COVID-19 national public health emergency

Current HIPAA Guidelines for Telehealth Services

- This means Healthy Start Providers can use video and phone services to provide case management and other program relevant services
- Providers may **NOT** use Facebook Live, Tik Tok, Twitch or any other public facing platforms to provide services
- The notification states that the following platforms may be used: Apple Facetime, Facebook Messenger Video, Google Hangouts Video, Zoom, and Skype without penalty

Current HIPAA Guidelines for Telehealth Services

- Best Practices would be to use a HIPAA Compliant Platform with a Business Associate Agreement (BAA) indicating the platform takes responsibility for encryption and privacy of the data.
- Free and Low Cost Options:
 - Google Meet through Google Workspace (Formerly G Suites)
 - Doxy.me
 - VSee
 - Spruce
 - Clocktree

Update on The Federal Open Notes Act

- The program rule on Interoperability, Information Blocking, and ONC Health IT Certification, which implements the 21st Century Cures Act passed in 2016, requires patients be provided access to all the health information in their electronic medical records without charge by their healthcare provider beginning April 5, 2021.
- The eight (8) types of clinical notes that must be shared are outlined in the United States Core Data for Interoperability (USCDI), and include:
 - consultation notes
 - discharge summary notes
 - history & physical
 - imaging narratives
 - laboratory report narratives
 - pathology report narratives
 - procedure notes
 - progress notes

Update on The Federal Open Notes Act

- The intention of the Act is to increase communication, collaboration, trust, accuracy, client understanding of the course of treatment, family involvement and a high standard of care in treatment while decreasing errors, miscommunications, and client lack of follow through.
- This Act applies to all direct care workers in all contexts of care to individuals in hospitals, agencies, private practices, and other settings.
- If your agency already used an Electronic Health Record (EHR), this mandate is required for all EHR's to meet this standard so the company used will be making updates to the platforms.
- If your agency does not use an EHR, you do not have to obtain one, if a client requests the notes, you will have to have a method to provide them.
- This can be a helpful tool to educate your clients (and yourselves) about so when they visit their Doctors for care, they are aware of their rights and ability to have this access to their as a communication tool.
- Clients could always request their records and notes, this Act streamlines the process and makes access easier.

SUCCESS STORIES FROM HS COMMUNITY

1. Healthy Birth Initiatives in Portland Oregon was successful in getting doulas back into the hospital because of our relationship with the Providence health system.
2. Jackson Hinds Healthy Start had a successful Drive Thru baby shower for our participants
3. We had our very first virtual CAN meeting.
4. IHS hosted its first virtual Community Connection event during September and discussed Infant Mortality Awareness Month
5. IHS mom shared her story at the 9th Annual Women of Influence Symposium about her birth and delivery of twins during COVID-19
6. Our virtual CAN meeting included Celebrated Day 366 with Presentation of pictures of participant moms and babies celebrating their first birthdays. Moms and babies were able to participate from home. Virtual can be better because you don't have transportation problems but may have wifi tech problems.

NEEDS OF CLIENTS AND HS STAFF DURING COVID-19 AND TELEHEALTH SERVICES

HEALTHY START STAFF REQUESTS:

- Flexibility with spending
- Technical support for participants the form of tablets with wifi access, technology for client's partners, tech support for technology challenges in families, equipment like external webcam and headset
- Better tracking system for staff performance
- Knowledge of resources for clients
- Grace with enrollment numbers for programs
- Monthly and/or temporary economic support for families that lost jobs or have new babies
- Flexibility overall
- HRSA updated expectations

One Word to Describe Serving HS Families During the Pandemic

SUPPORTIVE
SOLUTIONS

Healthy Start Staff Biggest Obstacles In Service Delivery

- Keeping everyone connected
- Consistent participation
- Engaging with new clients/getting new referrals
- engaging with fathers virtually
- Engagement/Retention, Maintaining Enrollment
- Getting partners to respond to program offerings
- Training needs
- Connecting with staff
- Being motivated
- Self care for staff
- Outreach
- Motivation
- Self-care
- Keeping staff morale high
- Changing program services to a virtual environment
- Maintaining balance
- Not having the same connection as in person
- Keeping staff motivated/keeping up morale
- Teleworking
- Funding for supporting families
- Dealing with uncertainty
- Participant contact changes
- Lack of technology
- Constant change

CASE MANAGEMENT IDEAS WHEN TECHNOLOGY NEEDS ARE MET:

- What creative ideas to connect and share information have been helpful?
- Suggestion: Use an electronic whiteboard in session that you both can write messages, draw, illustrate a point or lesson through a diagram
- Screen sharing options can occur in Zoom, Skype, GoToMeeting, and Google Meet where you can share music, videos, an electronic flyer or handout you can review together

Safety Planning During COVID19

- Request Participant have telehealth where they have the most privacy whether that is a particular space in their home or in an outdoor space
- Have a predetermined signal the client can say or do with their hand to let you know that someone is listening in to the conversation
- Encourage client to text or write information in the chat they cannot safely say out loud safely and delete after sending
- When possible help the client build and maintain strong natural supports who can help emotionally, with housing, or in other ways
- Know your agency policy and steps to take to help the client get to a safe place if they are ready to leave the home that help the situation and do not make it worse or more dangerous
- Frequently check in with Clients who you suspect or have confirmed they or their children are experiencing abuse

Q & A

Self Care for Providers

- What helps you feel more calm, balanced, and re-energized to continue to do this supportive work?
- When do you create time to do these activities?
- How do you remain consistent with this practice?

December Webinar

- Managing depression and anxiety during pandemic
- Self-Care Strategies
- Supporting clients
- Supporting staff
- Resources
