

A close-up photograph of a Black woman with her hair in a bun, smiling and looking down at a young Black child she is holding. The child is looking towards the camera. The woman has a nose ring and is wearing a grey top. The child is wearing a striped shirt. The background is blurred, suggesting an indoor setting.

Dual Reality: A restaurant saga

I looked up and noticed a sign . . .

OPEN

CLOSED

Racism structures “Open/Closed”
signs in our society.

It is difficult to recognize a system of inequity that privileges us.

Those on the outside are very aware of the two-sided nature of the sign.

Is there really a two-sided sign?

Hard to know, when only see "Open".
A privilege not to HAVE to know.
Once DO know, can choose to act.

What is racism?

A system

What is racism?

A system of structuring opportunity and assigning value

What is racism?

A system of structuring opportunity and assigning value based on the social interpretation of how one looks (which is what we call “race”)

What is racism?

A system of structuring opportunity and assigning value based on the social interpretation of how one looks (which is what we call “race”), that

- Unfairly disadvantages some individuals and communities

What is racism?

A system of structuring opportunity and assigning value based on the social interpretation of how one looks (which is what we call “race”), that

- Unfairly disadvantages some individuals and communities
- Unfairly advantages other individuals and communities
- Saps the strength of the whole society through the waste of human resources

Levels of Racism

- ❑ Institutionalized
- ❑ Personally-mediated
- ❑ Internalized

Institutionalized racism

- ❑ Differential access to the goods, services, and opportunities of society, by “race”

- ❑ **Examples**
 - Housing, education, employment, income
 - Medical facilities
 - Clean environment
 - Information, resources, voice

- ❑ Explains the association between social class and “race”

Personally-mediated racism

- ❑ Differential assumptions about the abilities, motives, and intents of others, by “race”
- ❑ Differential actions based on those assumptions

- ❑ Prejudice and discrimination
- ❑ Examples
 - Police brutality
 - Physician disrespect
 - Shopkeeper vigilance
 - Waiter indifference
 - Teacher devaluation

Internalized racism

- ❑ **Acceptance by members of the stigmatized “races” of negative messages about our own abilities and intrinsic worth**
- ❑ **Examples**
 - Self-devaluation
 - “White man’s ice is colder” syndrome
 - Resignation, helplessness, hopelessness
- ❑ **Accepting limitations to our full humanity**

Levels of Racism: A Gardener's Tale

Jones CP. Levels of Racism: A Theoretic Framework and a Gardener's Tale. *Am J Public Health* 2000;90(8):1212-1215.

Who is the gardener?

- Power to decide
- Power to act
- Control of resources

□ **Dangerous when**

- Allied with one group
- Not concerned with equity

“How is racism operating here?”

□ Identify mechanisms

- **Structures:** the *who?*, *what?*, *when?*, and *where?* of decision-making
- **Policies:** the written *how?*
- **Practices and norms:** the unwritten *how?*
- **Values:** the *why?*

Excess deaths of “Black” people from COVID-19

“How is racism operating here?”

- ❑ **More likely to become infected**
 - More exposed
 - Less protected

- ❑ **Once infected, more likely to die**
 - More burdened by chronic diseases
 - With less access to health care

What is health equity?

- ❑ **“Health equity” is assurance of the conditions for optimal health for all people**

- ❑ **Achieving health equity requires**
 - Valuing all individuals and populations equally
 - Recognizing and rectifying historical injustices
 - Providing resources according to need

- ❑ **Health disparities will be eliminated when health equity is achieved**

Barriers to achieving health equity

❑ **Narrow focus on the individual**

- Self-interest narrowly defined
- Limited sense of interdependence
- Limited sense of collective efficacy
- Systems and structures as invisible or irrelevant

❑ **A-historical stance**

- The present as disconnected from the past
- Current distribution of advantage/disadvantage as happenstance
- Systems and structures as givens and immutable

❑ **Myth of meritocracy**

- “If you work hard you will make it”
- Denial of racism
- Two babies: Equal potential or equal opportunity?

Barriers to achieving health equity

- ❑ **Myth of zero-sum game**
 - “If you gain, I lose”
 - Fosters competition over cooperation
 - Masks the costs of inequity
 - Hinders efforts to grow the pie
- ❑ **Limited future orientation**
 - Disregard for the children
No “*Seven generations*” perspective
No “*How are the children?*” focus
 - Usurious relationship with the planet
- ❑ **Myth of American exceptionalism**
 - Disinterest in learning from others
 - Sense of US entitlement

Barriers to achieving health equity

- ❑ **White supremacist ideology**
 - Hierarchy in human valuation
 - “White” as the ideal and the norm
 - Sense of “White” entitlement
 - Dehumanization of people of color
 - Fear at the “browning” of America
