What platforms have you used in the past or are you currently using to access online courses?

What features do you like from those platforms?

**What specific content would you like to see on
the TASC's online platform?**

**Are there specific topics, benchmarks, etc. you
would like to see addressed through an online
course?**

Which types of staff should we design courses for?

Project Directors/Managers? Case Managers and CHWs? Fatherhood Coordinators?

What would be most useful and engaging for those types of staff members?

Short videos? Readings? Quizzes?

Do you have any final thoughts you'd like to share about what the TASC can offer through its online platform?

Thank you for your input!

- **The TASC will utilize the information from today's discussion to inform its future online modules**
- **We truly value your participation and contributions!**
- **Keep an eye out for communications about online offerings coming later this year**

A photograph of a man with a beard and short hair, wearing a grey t-shirt, smiling warmly as he holds a young child. The child has dark hair styled in braids and is wearing a bright yellow t-shirt. They are in a bright, modern kitchen setting. The text 'Thank you!' is overlaid in large blue font on the left side of the image.

Thank you!
